

A message about water/drinks bottles

Being hydrated is important for sport. However, every year we collect a pile of bottles discarded on the grass in the boating area (some hardly used). These have to go into landfill or, if we can, we take them to our recycling bin

Please re-use your drinks bottles and take them home.

Better still, please always use a named re-usable drinks container.

A limited number of water bottles will be available for sale at the gazebo (just in case). There is a drinking water tap in the boating area. It's free!
